To Whom It May Concern:

Earthcare (David Doda) assisted us with the registration process for our first conference. We were complete novices at the entire program and David's professionalism and experience made the registration process a headache free experience for us. We were so satisfied that we enlisted Earthcare to handle our membership registration and fully intend for them to do the registration for our conference again this year.

I personally have found Dr. Doda extremely easy to work with, flexible and having impeccable integrity which is critical when dealing with transfer funding between accounts. He keeps the commitments he makes which is refreshing in this day and age.

I personally would recommend Earthcare to any individual or group who may be considering his services. You will not be disappointed.

Sincerely,  
Ann Lister  
President / CEO  
ICPA Inc.
